INTRODUCTION

Welcome to Data Management Training Center !

We have established our training center during 2023, we have been driven by our mission to provide perfect training service to each client, earning their trust, and enabling further growth. As a dynamic and growing training center in the field of training, coaching and consulting services, we are committed to delivering exceptional solutions to meet our clients' needs.

[Email: info@dmcenter.com](mailto:info@dmcenter.com)

COMPANY OVERVIEW

At our company, we take immense pride in our commitment to continuous improvement and client satisfaction. With a focus on delivering excellence, we provide a comprehensive range of training, coaching and consulting services. Our passion for service excellence has enabled us to successfully serve numerous training assignments and projects.

Our Value

Vision

To build leadership in the field of I.T., Data Management, Cyber Security and other courses offered. To shape up enduring relationships with our clients by delivering quality training services that add substantial value to their businesses and national economy.

[Email: info@dmcenter.com](mailto:info@dmcenter.com)

Mission

To provide high quality, accessible education and skills development for learners of all ages and backgrounds. We aim to empower our students with the knowledge, confidence and competencies they need to succeed in their personal and professional goals. We offer a variety of courses and programs that cater to different interests, needs and levels of learners, from basic literacy and numeracy to vocational and technical training. Our experienced instructors and supportive staff who are committed to delivering excellence in teaching and learning. We believe that education is a lifelong journey that can transform lives and communities for the better.

OUR SERVICES

We specialize in delivering a comprehensive range of training, coaching and consulting to cater to various industries.

Our offerings include:

TRAINING

- We provides various range of courses in data management and cyber security
- You can learn from experienced instructors and gain practical skills
- Whether you are a beginner or an expert, we have a course that suits your needs and goals

Head Hunting

- I.T. Staff, Engineers, Instructors and etc.
- A detailed assessment of your needs and goals
- A customized plan of action based on your budget and timeline
- A follow-up session to monitor your progress and provide feedback

Categories of our Training Programs

Our service aims to provide high quality training programs in the field of I.T., Data Management, Cyber Security and other technical and business to cater various industries. Our certified partners include CompTIA, Microsoft and Data Management Association with various courses and durations. Our training center is authorized by TVTC, KSA and our offerings contain:

CORE: IT Fundamentals, Network+, A+, Security+
INFRASTRUCTURE: Cloud+, Server+, Linux+
CYBERSECURITY: CySA+, CASP+, PenTest+

Microsoft Office 365
Microsoft Windows Client
Microsoft Exchange Server
Microsoft Security courses
Microsoft Dynamics CRM
Microsoft Azure

KSA Strategic Data Management and Personal Data Protection Certification - DMP
Data Management Governance Awareness Building Certification - DMG
Data Catalog and Metadata Certification - DCM
Data Quality Management Certification - DQM
Data Management Operations Certification –

المؤسسة العامة للتدريب التقني والمهني
Technical and Vocational Training Corporation

IELTS Courses Summary

مستوى الدورة Course level	-الفئات المستهدفة	Target groups-
	- عبر الإنترنت- وجهاً لوجه -في عطلة نهاية الأسبوع -وأيام الأسبوع -الأطفال-المبتدئين- الكبار	Online-face to face weekend- - weekday Kids-beginners-adults-
Beginner A1 IELTS 2.5-2.0	مبتدئ / إبتدائي يتوافق مع المستخدمين الأساسيين للغة، أي القادرين على التواصل في المواقف اليومية مع تعابير ومفردات شائعة الاستخدام.	Beginner/Elementary corresponds to basic users of the language, i.e. those able to communicate in everyday situations with commonly-used expressions and vocabulary
Elementary A2 IELTS 3.5-3.0	المستوى A2:المستوى الإبتدائي / ما قبل المتوسط يتوافق مع المستخدمين الأساسيين للغة، أي القادرين على التواصل في المواقف اليومية مع التعابير الشائعة الاستخدام والمفردات الأساسية.	Elementary/Pre-intermediate corresponds to basic users of the language, i.e. those able to communicate in everyday situations with commonly-used expressions and elementary vocabulary
Lower Intermediate B1 IELTS 5.0-4.0	مستوى قبل المتوسط/ المتوسط يتوافق مع المستخدمين المستقلين للغة، الذين لديهم الطلاقة اللازمة للتواصل بطريقة محدودة مع الناطقين بها.	Pre-intermediate/Intermediate corresponds to independent users of the language who have the necessary fluency to communicate in a limited way with nativespeakers
upper Intermediate B2 IELTS 6.5-5.5	المستوى المتوسط / فوق المتوسط يتوافق مع المستخدمين المستقلين باللغة، الذين لديهم الطلاقة اللازمة للتواصل دون جهد مع الناطقين بها.	Intermediate/Upper-intermediate corresponds to independent users of the language, who have the necessary fluency to communicate without effort with nativespeakers
Advanced C1 IELTS 8.0-7.0	مستوى متقدم يتطابق مع المستخدمين المتقنين للغة، أي تلك القدرة على أداء المهام المعقدة عند مواجهة مجموعة مختلفة من السيناريوهات.	Advanced corresponds to proficient users of the language, i.e. those able to perform complex tasks in a wide range of scenarios
Proficiency C2 IELTS 9.0-8.5	مستوى الإتقان يتوافق مع المستخدم الذي يتقن اللغة، الذين هم قادرين على أداء المهام المعقدة المتعلقة بالعمل والدراسة.	Proficiency corresponds to proficient users of the language, who are able to perform complex tasks related to work and study in a near native like manner
ESP	وهي أحد الدورات المعتمدة عالمياً والتي تقدم خدمة تعلم مهارات لغوية في مختلف المجالات مثل الطب والقانون والتمريض والسياحة والعمارة والمجال التقني ورجال الاعمال والتنفيذيين وغيرها من المجالات الأخرى، فهي دورة غنية للغاية وذخرة بالمهارات التي تؤهلك لدراسة أي مجال	It is one of the internationally accredited courses that provides a service for learning language skills in various fields such as medicine, law, nursing, tourism, architecture, the technical field, businessmen, executives, and other fields. It is an extremely rich course full of skills that qualify you to study any field.
STEP	اختبار كفايات اللغة الإنجليزية لخريجي المرحلة الثانوية والجامعية. For High school and university graduates.	English proficiency test for high school and university graduates.
FOUNDATION	وهي أحد أهم الدورات التي تعد الطلاب المبتعثين للدراسة في الجامعات الإنجليزية، حيث تعد الطلاب لدراسة اللغة الإنجليزية لأغراض أكاديمية ليكون الطالب مؤهلاً للتقديم للدراسة في الكليات الإنجليزية.	It is one of the most important courses that prepare students sent to study in English universities, as it prepares students to study the English language for academic purposes so that the student is eligible to apply to study in English colleges.

CompTIA Courses Summary

S/N	Subject	Levels	Course Name	Duration	Language
1	Cyber Security	Beginners	A+	5 days - 6 hours daily	English / Arabic
2			ITF+	5 days - 6 hours daily	English / Arabic
3			Project+	5 days - 6 hours daily	English / Arabic
4		Intermediate	Netwrok+	5 days - 6 hours daily	English / Arabic
5			Security+	5 days - 6 hours daily	English / Arabic
6			Server+	5 days - 6 hours daily	English / Arabic
7		Advanced	CySA+	5 days - 6 hours daily	English / Arabic
8			Pen Test+	5 days - 6 hours daily	English / Arabic
9		Expert	CASP+	5 days - 6 hours daily	English / Arabic
10	Infrastructure & Cloud	Beginners	A+	5 days - 6 hours daily	English / Arabic
11			Cloud Essentials+	5 days - 6 hours daily	English / Arabic
12			ITF+	5 days - 6 hours daily	English / Arabic
13			Project+	5 days - 6 hours daily	English / Arabic

CompTIA CySA+ CS0-002 & CS0-003

What is it?

CySA+ is the most up-to-date security analyst certification that covers advanced persistent threats in a post-2014 cybersecurity environment.

Why is it different?

The behavioral analytics skills covered by the CompTIA CySA+ certification identify and combat malware and advanced persistent threats (APTs), resulting in better threat visibility across a broad attack surface by focusing on network behavior, including an organization's interior network.

About the exam

The exam will certify that the successful candidate has the knowledge and skills required to:

- Leverage intelligence and threat detection techniques
- Analyze and interpret data
- Identify and address vulnerabilities
- Suggest preventative measures
- Effectively respond to and recover from incidents

Exam Domains with % of Exam

CySA+ CS0-003

- Security Operations (33%)
- Vulnerability Management (30%)
- Incident Response Management (20%)
- Reporting and Communication (17%)

CySA+ CS0-002

- Security Operations and Monitoring (25%)
- Threat and Vulnerability Management (22%)
- Incident Response (22%)
- Software and Systems Security (18%)
- Compliance and Assessment (13%)

CompTIA A+ Core Core 1 220-1101 &

Core 2 220-1102

What is it?

CompTIA A+ certified professionals are proven problem solvers. They support today's core technologies from security to networking to virtualization and more. CompTIA A+ is the industry standard for launching IT careers into today's digital world.

Why is it different?

CompTIA A+ is the only industry recognized credential with performance testing to prove pros can think on their feet to perform critical IT support tasks. It is trusted by employers around the world to identify the go-to person in end point management & technical support roles. CompTIA A+ appears in more tech support job listings than any other IT credential.

About the exam

CompTIA A+ validates the skills required to install and configure end-user devices and software; connect devices to networks; perform basic cybersecurity mitigations; troubleshoot common problems to diagnose and resolve issues; and demonstrate basic knowledge of scripting, the cloud, and virtualization.

The CompTIA A+ Core 1 (220-1101) exam covers five domains.

- Mobile devices (15%) • Networking (20%) • Hardware (25%) • Virtualization and Cloud Computing (11%) • Hardware and Network Troubleshooting (29%)

The CompTIA A+ Core 2 (220-1102) exam covers four domains.

- Operating Systems (31%) • Security (25%) • Software Troubleshooting (22%) • Operational Procedures (22%)

CompTIA Network+

N10-008

What is it?

CompTIA Network+ validates the technical skills needed to securely establish, maintain and troubleshoot the essential networks that businesses rely on.

Why is it different?

- Unlike other vendor-specific networking certifications, CompTIA Network+ prepares candidates to support networks on any platform. It provides the foundation you need to work on networks anywhere. • CompTIA Network+ is the only certification that covers the specific skills that network engineers need. Other certifications are so broad, they don't cover the hands-on skills and precise knowledge needed to in today's networking environments.

About the exam

CompTIA Network+ N10-008 validates the skills required to implement enterprise-level wired and wireless network solutions; identify and troubleshoot network performance issues; and harden networks against threats to mitigate security vulnerabilities.

The major areas of emphasis include:

- IP addressing and connecting networks • Wireless standards and technologies • Network availability • Securing and hardening networks • Troubleshooting

The CompTIA Network+ exam covers five major domains.

- Networking Fundamentals (24%) • Network Implementations (19%) • Network Operations (16%) • Network Security (19%)

CompTIA Cloud+ CV0-003

What is it?

CompTIA Cloud+ is a global certification that validates the skills needed to deploy and automate secure cloud environments that support the high availability of business systems and data.

Why is it different?

- CompTIA Cloud+ is the only performance-based IT certification that views cloud-based infrastructure services in the context of broader IT systems operations regardless of the platform.
- Migrating to the cloud presents opportunities to deploy, optimize, and protect mission critical applications and data storage. CompTIA Cloud+ validates the technical skills needed to secure these valuable assets.
- The reality of operating multicloud environments poses new challenges. CompTIA Cloud+ is ideal for cloud engineers who need to have expertise across multiple products and systems.

About the exam

CompTIA Cloud+ validates the skills needed to implement cloud solutions, maintain and optimize cloud environments, and troubleshoot issues encountered when working in the cloud. The major areas of emphasis include:

- Cloud architecture and design
- Security within the cloud
- Automation and virtualization
- Disaster recovery
- High availability

Exam Domains Cloud+ CV0-003

Cloud Architecture & Design 13%, Security 20%, Deployment 23%, Operations & Support 22%, Troubleshooting 22%.

CompTIA Pentest+ PT0-002

What is it?

PenTest+ assesses the most up-to-date penetration testing, and vulnerability assessment and management skills necessary to determine the resiliency of the network against attacks. The CompTIA PenTest+ certification exam will verify successful candidates have the knowledge and skills required to:

- Plan and scope a penetration testing engagement
- Understand legal and compliance requirements
- Perform vulnerability scanning and penetration testing using appropriate tools and techniques, and then analyze the results
- Produce a written report containing proposed remediation techniques, effectively
- communicate results to the management team, and provide practical recommendations

About the exam

PenTest+ PT0-001

1.0 Planning and Scoping 15%, 2.0 Information Gathering and Vulnerability Identification 22%, 3.0 Attacks and Exploits 30%, 4.0 Penetration Testing Tools 17%, 5.0 Reporting and Communication 16%.

PenTest+ PT0-002

1.0 Planning and Scoping 14%, 2.0 Information Gathering and Vulnerability Scanning 22%, 3.0 Attacks and Exploits 30%, 4.0 Reporting and Communication 18%, 5.0 Tools and Code Analysis 16%.

CompTIA CASP+ CASP+ CAS-003, CASP+ CAS-004

What is it?

CASP+ is an advanced-level cybersecurity certification covering technical skills in security architecture and senior security engineering in traditional, cloud, and hybrid environments, governance, risk, and compliance skills, assessing an enterprise's cybersecurity readiness, and leading technical teams to implement enterprise-wide cybersecurity solutions.

Why is it different?

CASP+ is the only hands-on, performance-based certification for advanced practitioners — not managers — at the advanced skill level of cybersecurity. While cybersecurity managers help identify what cybersecurity policies and frameworks could be implemented, CASP+ certified professionals figure out how to implement solutions within those policies and frameworks.

About the exam

CompTIA Network+ N10-008 validates the skills required to implement enterprise-level wired and wireless network solutions; identify and troubleshoot network performance issues; and harden networks against threats to mitigate security vulnerabilities.

The major areas of emphasis include:

- IP addressing and connecting networks
- Wireless standards and technologies
- Network availability
- Securing and hardening networks
- Troubleshooting

The CompTIA Network+ exam covers five major domains.

- Networking Fundamentals (24%)
- Network Implementations (19%)
- Network Operations (16%)
- Network Security (19%)

CompTIA Cloud Essentials+ CompTIA Linux+ CompTIA Server+

Contact us:
Request a Call Back or
Whatsapp [+966 557840475](tel:+966557840475)

Email: info@dmcenter.com

CompTIA Cloud Essentials+ CLO-002

What is it?

CompTIA Cloud Essentials+ is for both IT and non-technical professionals who require the essential business acumen needed to make informed cloud service decisions.

Why is it different?

CompTIA Cloud Essentials+ is the only internationally recognized, vendor-neutral certification utilizing key business principles and fundamental cloud concepts that validate data-driven cloud recommendations. It stands alone in this field by demonstrating that all necessary staff members—not just the IT specialists—understand how to increase efficiency, manage costs, and reduce security risks for organizations whenever tasked with making current cloud technology decisions.

About the exam

Business analysts and IT pros alike are consistently called upon to assist their organization in determining which cloud service provider(s) to use, what to migrate to the cloud, and when to implement. Collecting and analyzing cloud products and services information is essential when making operational cloud business decisions. The financial and operational impacts covered by Cloud Essentials+ ensure an ability to develop and implement solid cloud strategies. CompTIA Cloud Essentials+ will show that successful candidates:

- Have the knowledge and understanding of the foundational business and technical components included in a cloud assessment
 - Understand specific security concerns and measures
 - Comprehend new technology concepts, solutions, and benefits to an organization
- Cloud Concepts 24%, Business Principles of Cloud Environments 28%, Management & Technical Operations 26%, Governance, Risk, Compliance, and Security for the Cloud 22%.

CompTIA Linux+ XK0-005

What is it?

CompTIA Linux+ validates the skills administrators need to secure the enterprise, power the cloud and keep systems running. The new certification ensures that IT professionals, software developers, cybersecurity engineers and penetration testers have these necessary skills to support today's tech systems.

Why is it different?

- CompTIA Linux+ is the only job-focused Linux certification covering the latest foundational skills demanded by hiring managers.
- Unlike other certifications, the new exam includes performance-based and multiple-choice questions to identify the employees who can do the job.
- The exam covers tasks associated with all major distributions of Linux, setting the foundation for advanced vendor/distro-specific knowledge.

About the exam

CompTIA Linux+ validates mastery of the tools and technologies required to manage, secure, optimize, and troubleshoot, enterprise-level Linux systems.

The major areas of emphasis include:

- Configuration and management of Linux systems
- Operation of on-prem and cloud-based distributions
- Containerization and automation
- Scripting

CompTIA Linux+ opens doors to new career pathways. Cybersecurity, the cloud, and DevOps all rely on Linux

CompTIA Server+ SK0-005

What is it?

CompTIA Server+ is a global certification that validates the hands-on skills of IT professionals who install, manage and troubleshoot servers in data centers as well as on-premise and hybrid environments.

Why is it different?

- CompTIA Server+ is the only certification that can ensure that IT professionals at the administrator level are able to do the job in any environment because it is the only certification not restricted to a single platform.
- CompTIA Server+ covers essential hardware and software technologies of on-premise and hybrid server environments including high availability, cloud computing and scripting.
- CompTIA Server+ includes performance-based questions that require the candidate to demonstrate multi-step knowledge to securely deploy, administer and troubleshoot servers.

About the exam

CompTIA Server+ SK0-005 certifies individuals who securely administer physical and virtual servers. This exam will certify that the successful candidate has the knowledge and skills required to:

- Install, configure and manage server hardware and server operating systems
- Implement proper server hardening and security controls
- Successfully troubleshoot common server problems
- Demonstrate an understanding of key disaster recovery, high availability and backup concepts

The Server+ exam covers four major domains. • Server Hardware Installation & Management (18%) • Server Administration (30%) • Security & Disaster Recovery (24%) • Troubleshooting (28%)

CompTIA DataSys+ CompTIA Data+ CompTIA Project+

Contact us:

CompTIA DataSys+

DSO-001

What is it?

The CompTIA DataSys+ exam sets a unified standard of skills for the successful management and securing of data assets. It covers what database administrators need to deploy, manage, and maintain systems, as well as securing those systems and data assets.

Set yourself apart with CompTIA DataSys+

- The Only Vendor Neutral Database Certification Develop and validate data system skills regardless of vendor tools.
- A Standardized Skill Set DataSys+ defines and confirms a consistent skill set appropriate for the job role of database administrator.
- An Ever-Growing Need The constant acquisition of data demands qualified administrators to manage and secure those assets.

About the exam

Prove your skills with CompTIA DataSys+ Validate the skills required for high-stakes database management. The CompTIA DataSys+ (DSO-001) certification exam is vendor neutral and covers what database administrators need to deploy, manage, and maintain systems, including employing the fundamentals of scripting and programming in a database environment while using security and business continuity best-practices. The exam covers the following objectives:

- Database Fundamentals - Gain a solid understanding of database structure types and the ability to develop, modify and run code, providing the groundwork for database administrators to gather, store, and drive data assets.
- Database Deployment - Compare and contrast the various aspects of database planning and design and explain the various phases of the implementation, testing, and deployment of collected data.
- Database Management and Maintenance - Understand the purpose of monitoring and reporting database performance, explain common database maintenance processes, and produce critical documentation.

CompTIA Data+

DA0-001

What is it?

CompTIA Data+ is an early-career data analytics certification for professionals tasked with developing and promoting data-driven business decision-making.

Facts about Data+

- Better Analyze and Interpret Data - Mine data more effectively. Analyze with rigor. Avoid confounding results.
- Communicate Insights - Highlight what's important. Produce reports that persuade, not confuse. Make better data-driven decisions.
- Recruit and Train - Know what data skills to recruit for. Train your team with confidence

Train with Data+

CompTIA Data+ gives your team members the confidence to bring data analysis to life. As the importance for data analytics grows, more job roles are required to set context and better communicate vital business intelligence. Collecting, analyzing, and reporting on data can drive your organization's priorities and lead business decision-making. CompTIA Data+ validates your team members have the skills required to facilitate data-driven business decisions, including:

- Mining data
- Manipulating data
- Visualizing and reporting data
- Applying basic statistical methods
- Analyzing complex datasets while adhering to governance and quality standards throughout the entire data life cycle

About the exam

1.0 Data Concepts and Environments 15%, 2.0 Data Mining 25%, 3.0 Data Analytics 23%, 4.0 Visualization 23%, 5.0 Data Governance, Quality, and Controls 14%

CompTIA Project+

PK0-005

What is it?

CompTIA Project+ gives IT professionals hands-on project management skills to coordinate small- to medium-sized projects using waterfall and agile methodologies.

Manage IT projects efficiently with Project+

CompTIA Project+ is ideal for IT pros who need to manage less complex projects as part of their other job duties. Project+ is demanded by employers because it covers how to manage a project lifecycle by identifying and managing risk, establishing a communication plan, managing resources, and stakeholders, and maintaining project documentation.

About the exam

Entry-level PM skills for IT pros have become necessary as the industry becomes more regulated and more emphasis is placed on risk management. In addition, agile and waterfall methodologies are used more frequently for a wider variety of IT projects. Hiring managers need their staff to manage projects, determine project risk, and communicate with project teams. This makes CompTIA Project+ the ideal certification for IT pros looking to learn those hands-on, entry-level project management skills. The Project+ exam ensures the candidate has the knowledge and skills required to:

- Manage the project life cycle
- Coordinate small-to-medium-size projects
- Establish an appropriate communication plan while managing resources and stakeholders and maintaining project documentation
- Support the completion of larger projects within an IT environment

1.0 Project Management Concepts 33%, 2.0 Project Lifestyle Phases 30%, 3.0 Communication and Change Management 19%, 4.0 Project Tools and Documentation 18%

CompTIA IT Fundamentals (ITF+)

FC0-U61

What is it?

CompTIA IT Fundamentals (ITF+) is an introduction to basic IT knowledge and skills that helps professionals decide if a career in IT is right for them. It also helps organizations prepare non-technical teams for digital transformation.

Why is it different?

- CompTIA ITF+ establishes an IT education framework for students in middle school and high school.
- ITF+ is the only pre-career certification that helps students or career changers determine if they have a competency for information technology and if it is the right career path for them.
- ITF+ is the only single certification that covers all areas of IT foundations making it ideal for nontechnical professionals.

About the exam

The CompTIA IT Fundamentals exam will certify the successful candidate has the knowledge and skills required to identify and explain the basics of computing, IT infrastructure, application and software, software development, database fundamentals, and security. In addition, candidates will have the ability to demonstrate their knowledge to:

- Install software
- Establish basic network connectivity
- Identify/prevent basic security risks
- Explain troubleshooting theory and preventative maintenance of devices

This exam is intended for candidates who are advanced end users and/or are considering a career in IT. The exam is also a good fit for individuals interested in pursuing professional-level certifications, such as A+.

CompTIA Security+

SY0-701

What is it?

CompTIA Security+ is a global certification that validates the baseline skills you need to perform core security functions and pursue an IT security career.

Why is it different?

- More choose Security+ – chosen by more corporations and defense organizations than any other certification on the market to validate core security skills and for fulfilling DoD 8570 compliance.
- Security+ proves hands-on skills – the only baseline cybersecurity certification emphasizing vendor-neutral, hands-on practical skills, ensuring the security professional is better prepared to problem solve a wider variety of today's complex issues.
- Security+ is aligned to the latest trends and techniques – covering the most core technical skills in risk assessment and management, incident response, forensics, enterprise networks, hybrid/cloud operations, and security controls, ensuring high-performance on the job.

About the exam

CompTIA Security+ is the first security certification a candidate should earn. It establishes the core knowledge required of any cybersecurity role and provides a springboard to intermediate-level cybersecurity jobs. Security+ incorporates best practices in hands-on troubleshooting, ensuring candidates have practical security problem-solving skills required to:

- Assess the security posture of an enterprise environment and recommend and implement appropriate security solutions
- Monitor and secure hybrid environments, including cloud, mobile, and IoT
- Operate with an awareness of applicable laws and policies, including principles of governance, risk, and compliance
- Identify, analyze, and respond to security events and incidents
